

Høybråten skole

We wish that holidays and other activities that are not educationally oriented, should be added to the school holidays and days off.

Høybråten School follows the city of Oslo regulations for leave in primary school. It is the headmaster who processes all leave applications. It is important that you apply to the school for leave before you book holiday trips or make plans for other activities. Leave is not granted for more than 10 school days per school year.

[Here you apply for leave for your child](#)

Answer to the application for leave is a single decision. The decision can be appealed with an appeal deadline of three weeks from the time the guardian has received the letter. Any complaint must be justified in writing and sent to the school for further proceedings.

Leave is not granted during periods of preparation for, and implementation of:

- State mapping tests
- National tests
- Oslo trials

Members of religious communities outside the Church of Norway can apply for leave on their religious community's public holidays.
